

Viet Nameese Demand Full Independence In Indochina Peace Plan

By MAX HARRELSON

GENEVA (AP)—The Viet Nam government readied its own Indochina peace plan for inspection by the Geneva conference today. The scheme, reportedly calling for complete independence, further complicates France's problems.

Informed quarters said Viet Nam's Foreign Minister Nguyen Quoc Dinh would premise his plan to end the Indochina fighting on independence demands for the three Associated States—Viet Nam, Laos and Cambodia. Dinh was the only speaker listed for today's session.

In opposing any partition, Dinh's proposal ran somewhat contrary to France's plan for setting up armistice zones for the opposing forces. The Vietnamese have expressed the belief the French plan would leave the way open for partition, giving valuable territory to the Communist-led Vietminh.

Dinh also declared Viet Nam's relations with France would be based on declarations foreseeing full independence for his country. He was reported also to be basing his armistice proposals on the independence demands of the sister

Hope Dwindles For California Kidnap-Author

SAN QUENTIN, Calif. (AP)—Faint hope glimmered today for the life of Caryl Chessman, condemned reputed genius, author and rapist scheduled to die Friday. Gov. Goodwin J. Knight agreed to look over the record of his Los Angeles conviction of kidnaping with bodily harm.

Knight earlier dismissed plea for clemency for Chessman filed by a criminologist and a noted author. He said Chessman's crimes—kidnaping, attempted rape, sex perversion and robbery—were "horrible and there were 17 of them." And he said one of Chessman's female victims is still in a mental hospital as a result of his attack.

California law makes no exception of "people who write books," Knight added. He referred to Chessman's "Cell 2455, Death Row," a best seller.

However, after a half-hour closed-door conference late Tuesday with Chessman's attorney, Berwyn Rice, Knight said he will review one point of the 32-year-old convict's 1948 conviction—whether the court reporter's notes were sufficient.

The original court reporter died during the trial. Rice contends his replacement was not fully able to translate the first reporter's notes for the appeal record.

Chessman's chances of avoiding San Quentin's green-painted gas chamber seemed slim, however. Before talking with Rice, the governor said he had no intention of setting himself up as a "super supreme court" to judge issues already decided.

Chessman, who acted as his own attorney until he hired Rice with a \$1,000 advance on his book, already had fought his case up to the U. S. Supreme Court and was turned down all the way. Before Knight became governor, Gov. Earl Warren, now chief justice of the United States, had refused clemency.

Detroit Boy, 15, Slays Girl, 4; Can't Tell Why

DETROIT (AP)—An unemotional high school student told police today he fatally beat and slashed a 4-year-old girl, but didn't know why he did it.

Marion Jo Zobrovitz was found Tuesday by three playmates in a garage behind her home, her body torn and bleeding. She died in a hospital after doctors fought 4½ hours to save her.

Police Lt. Edward Jacques said 15-year-old Terrence De Moss told him he had struck the girl with a 2-by-4 beam, then slashed her.

Tells His Mother

De Moss is a juvenile under Michigan law and cannot be charged with a major crime in Criminal Court unless Probate Court waives its jurisdiction.

Mrs. Doris DeMoss, his mother, told police that she suspected her son, but police arrived before she could call them.

She told police that he came home early from school and tried to clean brown spots off his grey flannel trousers. He told his mother that a girl had spilled something at school and he had gotten splashed.

Later, she told police, Terry admitted he had attacked the child. Meanwhile, police, acting on a tip from a policeman neighbor, had already headed for the home.

Cuts Up Animals

Patrolman Andrew Hunter tipped authorities to the possibility of De Moss being involved in the crime. He said De Moss was known to have dissected animals and that when he heard of the attack on the girl he thought of the youth at once.

Police said Terry had been treated three times at the Wayne County Child Study Clinic and had been arrested once for breaking and entering.

Marion Jo was one of four children of Morris and Julie Zobrovitz. Zobrovitz, a truck driver, said, "We moved to this address in January because the house we were living in had rats. With Cookie (Marion Jo) and the new baby coming on, we were afraid to stay 'My God, I wish we had.'"

New Security Chief Ready To Hit Hard At America's Spies

By FRANCES LEWINE

NEWARK, N. J. (AP)—William F. Tompkins, a man with the lean and hawklike look of a Sherlock Holmes, is ready to "hit hard" as the nation's new prosecutor of spies and subversives.

He thinks the government should "expedite" action against Communists and subversives on the old legal theory that "Justice delayed is justice denied."

Tompkins, 41, a hard-working, hard-smoking New York lawyer, jumped into the New Jersey political scene fresh from law school and a stint in the Army during World War II. He served three years as a state assemblyman and was rounding out his first year as U. S. attorney for the New Jersey district, when he was named May 10 to head the new Internal Security Division of the Justice Department. He will hold the rank of assistant U. S. attorney general.

Not An Investigator

He made it clear today that the new job doesn't involve any investigating on his part.

The FBI will do that, while the Internal Security Division gets the cases before grand juries and into the courts for prosecution, he explained.

Tompkins' nomination by the President must be approved by the U. S. Senate.

He said he suspects his appointment came as a result of the good work of his office here in cracking down on gangsters and racketeers and "some successful income tax evasion" cases.

"And what a time for it to come," he said, "right in the middle of the Zwilling thing." He referred to an income tax case involving prohibition era rumrunner Abner (Longie) Zwilling of Newark, which his office now is presenting to a federal grand jury. Zwilling was linked with big-time racketeers during the Senate Crime Investigating Committee hearings in 1951.

Enjoys His Work

Tompkins, a Republican, said he wants to clear up the Zwilling matter.

Auto Pioneer Dies

FLINT (AP)—Edward M. Cummings, one of the first men in the automobile supply business in Flint, died Monday at the age of 79. He founded the Cummings Bros. supply company in 1904. He was also a conservation enthusiast, building a fish hatchery to stock streams in the Oscoda area.

Lawmakers Get Back To Lansing For 2-Day Finale

LANSING (AP)—Demands for the removal of impeachment of the Antrim County probate judge will be heard by the House Judiciary Committee today as a prelude to a two-day sine die adjournment session of the Legislature.

The committee, virtually conducting a little trial of its own, will decide whether to recommend that the House initiate impeachment of Probate Judge William C. Severance, to request the governor to remove him or to drop the case.

Vetoes Likely To Stand

Judge Severance was accused in an auditor general-attorney general investigation of irregularities in the handling of inheritances. The Antrim County Board of Supervisors requested Williams to remove him, but the governor could not act constitutionally while the Legislature is in session.

Rep. Harry R. Carroll (R - Mt. Clemens), chairman of the judiciary committee, said Prosecuting Attorney Harry T. Cook of Antrim County would present nine witnesses before the committee.

The full House and Senate will return at 10 a.m. Thursday for the last two days of the 1954 session—meetings designed to let the lawmakers clean up last minute tangles and act on vetoes.

They will adjourn at noon Friday. Four vetoes by Gov. Williams face the lawmakers, but there seemed to be little advance expectation that any could be overridden. The Democrats control sufficient votes in the House to sustain a veto if they stick together.

Milk Bill Argued

The most hubbub revolves around Williams' veto of a bill forbidding the super-fortification of milk.

Two matters still are in conference committee, with no prospect yet that they have been settled.

One is a retroactive pay raise for legislative employees and the other is a bill giving Wayne University control over a state-owned neuropsychiatric clinic at the school.

He gives much of the credit for his success in handling important federal cases to his hand-picked staff of "young men on their way up."

During his term in the State Assembly, Tompkins sponsored legislation to bolster New Jersey's war on narcotics peddlers and users. He also co-sponsored a bill creating a waterfront commission to look into widespread racketeering on the New Jersey docks.

In addition to his legal duties as U. S. attorney, he was the guiding force behind an "educational program" to wipe out rackets and gambling in New Jersey's network of big industrial plants.

Like any other father, he gets his exercise romping with young Bill, he said. A carry-over from his college days, he still plays sandlot baseball.

Man Without Legs Since 1898 Draws First Security Pay

CHICAGO (AP)—Martin F. Stogenson, 65, who lost both legs in childhood but has worked steadily and supported a wife and seven children, drew his first Social Security check Monday. He is eligible for the highest Social Security payment — \$85 monthly.

Stogenson lost his legs while selling newspapers aboard a train in 1898. Both his legs were cut off when he slipped while boarding the train.

He was married in 1924 and had seven children. Five of them survive.

Stogenson has worked at a number of jobs including shipping clerk claim investigator and auditor. For the last nine years he has been a dispatcher for a delivery service.

Brothers Loot 75 Cottages On Manistee River

CADILLAC (AP)—State police today said that four Missaukee County brothers, ranging in age from 17 to 43, have admitted the systematic looting of 75 cottages and cabins along the Manistee River.

Value of the stolen articles, most of which police said were recovered, was estimated at \$15,000.

State police identified the brothers as Chris Peterson, 43, Lewis, 27, Loren, 22, and Cledus, 17.

Tire First Clue

Officers said the four admitted the thefts singly and as a group. They were arrested late Tuesday and held in jail in Cadillac for further questioning.

A routine investigation of an apparently abandoned car by trooper Daniel Comrie led to the arrest of the brothers who live within a five-mile radius near Lake City.

Comrie found a tire in the car that was reported stolen from one of the looted cottages. A check of the car registration led to the arrests.

Loren, Chris and Cledus, police said, were arrested at Camp Grayling where they were helping to erect tents. Lewis was arrested at his home where officers said the loot was neatly stacked and arranged in a garage.

Guns All Loaded

Tools were hung on the wall with rifles and shotguns, all loaded. Outdoor motors, a refrigerator, stove, lawnmowers, fishing gear and clothing were arranged in careful order, officers said.

The men told police they had disposed of nothing except the food that had been taken and planned to use the stolen articles themselves.

The looting, which began in March, was carried out on an organized basis, the men cleaning out one cottage and cabin after another as they worked their way along the river.

Police said some articles had already been identified by owners. Other articles will be held at the Cadillac post awaiting identification.

Red Hunt Shifted To Flint; Witness Calls Clardy Liar

FLINT (AP)—A House un-American activities subcommittee opened a three-day hearing in Flint today with more than 30 witnesses summoned to testify on Communist infiltration of labor unions and the professions.

Rep. Velde (R-Ill.), chairman of the full committee, flew in from Washington to sit in on the Flint phase of the hearings.

The subcommittee headed by

Rep. Clardy (R-Mich.), wound up two days of hearings in Lansing Tuesday by announcing it would start denaturalization and deportation proceedings against Richard L. Davis, 42, identified as a salesman for the Concrete Wall Co. of Detroit.

The concluding session was highlighted by Richard K. Fox, 33, an unemployed carpenter and former Michigan State College student, when he called Clardy "a liar."

Clardy said no decision had been made on recommending contempt citations for any of yesterday's witnesses. But Fox's outburst, he said privately, was "prima facie contempt of Congress."

Davis refused to give details of his employment record, to say whether he had been a Communist in Detroit and Los Angeles or had attended Communist schools.

Clardy said the committee had "ample evidence" that Davis, a Canadian, got his citizenship by concealing that he was a Communist and by using a false name.

When Fox took the stand, he had to be gavelled to order repeatedly. Clardy finally ordered a state police detective to sit beside Fox to restrain him "by physical force, if necessary."

Planes Drop Food

Vietminh Ge. Vo Nguyen Giap announced by radio Tuesday night his approval of the casualty removal, agreed to by French and Communist representatives at the Geneva conference.

French transports continued to drop hundreds of pounds of food and medical supplies on the conquered fortress site for the wounded. Bode said none of the mercy planes had been fired on.

The rebel radio had announced that French doctors captured when the fortress was overrun—there were 20 there during the siege—were attending the wounded.

French May Ask Foreign Help To Halt Red Drive

By LARRY ALLEN

HANOI, Indochina (AP)—France put Indochina's vital Red River delta on top of the Indochina danger list today. A top French commander warned that his forces may need foreign help if the Communist-led Vietminh unleash all their power against the defense perimeter.

Gen. Pierre Louis Bodet, chief aide to the French commander in chief in Indochina, Gen. Henri Navarre, told a news conference Tuesday night:

"The situation in the delta is serious but far from hopeless or desperate. We may need help from outside if the Vietminh attack the delta with all their means and with their forces from Dien Bien Phu."

Villages Wiped Out

The rebels throughout the rich rice lands stepped up their attacks on thinly manned French and Vietnamese defense posts.

The French retaliated with massive bombing assaults Tuesday on key centers of Vietminh activity in the southeast part of the delta. From these, the French claimed, the rebels had staged big raids on the highway and railway linking Hanoi and Haiphong.

Bodet said he did not think the Vietminh could hurl any of their forces from Dien Bien Phu against the delta sooner than within six to eight weeks.

He revealed that U. S. Air Force Globemasters are airlifting more French reinforcements "to reconstitute the battle corps" hard hit by losses at the fallen fortress.

The French also went ahead with preparations to airlift the approximately 1,300 wounded from Dien Bien Phu. The French high command said its representatives were expected to fly to Dien Bien Phu by helicopter Thursday to arrange with the Vietminh for the evacuation.

Joe-Must-Go Club Leaders Called Into Court In Wisconsin

BARABOO, Wis. (AP)—A legal move by the Joe Must Go Club that seeks the recall of Sen. McCarthy (R-Wis) succeeded today in blocking, at least temporarily, a John Doe investigation that was scheduled to begin here this morning.

Circuit Judge Bruce Beilfuss of Neillsville signed a show cause order directing Harlan Kelley, district attorney of Sauk County, to show cause why he should not call off the proposed investigation but declined to reveal its nature or to say whether it involved the Joe Must Go Club.

Leroy Gore, Sauk City, Wis. weekly newspaper editor and founder of the club which seeks the recall of Sen. McCarthy (R-Wis), said he and the group's treasurer, Carl Lachmund, had been subpoenaed.

When Gore announced he was ordered to appear, he said "McCarthy backers were certain to take legal action against the re-

call sooner or later."

Speaking at an organization meeting here Monday, Gore said "We intend to find out who really started these proceedings."

"When we do we are certain to find that the man behind them will stand revealed as fanatic McCarthy backer who seeks to slow the recall drive," he added.

Sauk County Dist. Atty. Harlan Kelley has refused to reveal the nature of the hearing. He said only it concerned possible violation of the Wisconsin Corrupt Practices Act. Kelley ordered the proceedings held behind closed doors.

The statute involves a wide variety of activity including campaigns, campaign organization and elections.

The bill authorizes United States participation with Canada in building a waterway to carry ocean shipping from the Atlantic to the Great Lakes.

New Guided Missile Has Supersonic Speed

WASHINGTON (AP)—A rocket-powered supersonic guided missile system, designed to be used from airplanes against airplanes, was announced by the Defense Department Tuesday night.

The weapon, known as the Sparrow I, is "fully maneuverable at supersonic speeds, yet light and compact enough to be carried in multiple units by fighter-type jet aircraft," the announcement said.

The Navy disclosed it is training ship and shore personnel for use of the Sparrow by carrier-based jet aircraft.

Council Cuts Budget:

Administrative Aide Is Eliminated In 3-2 Vote

Escanaba City Council in reviewing the proposed city budget for 1954-55 struck out a number of items and eliminated the position of administrative assistant, despite objections by City Manager A. V. Aronson that the latter action would weaken administration to the detriment of the city and in the long run create no real saving.

The Council split three to two last night in voting on the elimination of the position of administrative assistant, which pays a salary of \$4,368.

Councilmen Edward J. Cox and Wesley Hansen voted to retain the assistant, and Councilmen Jacob Bink, Robert E. LeMire and Mayor Harlan Yelland voted to eliminate the position.

Budget Reductions

The city has had an administrative aide to the city manager since 1947, and the present assistant is Bernard Olson, who came here in Sept., 1952. The position will be eliminated effective July 1, the beginning of the new fiscal year.

Budget reductions made by the Council total about \$15,958. These cuts were made from the budget proposed by the city manager. Only on the question of eliminating the position of administrative aide did the Council split, although there was some minor disagreement on other budget items.

The final budget total will not be known until later today when the Council decides on employee pay raises recommended by the manager and the civil service commission. The budget proposed by the manager provides for a 2 per cent pay raise, and in addition the civil service commission is recommending 1 cent per hour for cost of living increase.

Need Is Debated

The City Council is completing review of the budget today so that it will be ready to present for public hearing at a Council meeting to be held Thursday night, May 20. Considerable debate marked the Council's action in eliminating the position of administrative assistant.

Mayor Yelland said he believes the "administration of the city is top-heavy compared to the number of employees we have" and that work now done by the administrative assistants could be divided among other employees.

City Manager Aronson replied that he has been employed by the city for many years, and that now as manager he recognizes the need for good administration and believes the administrative assistant performs vitally necessary tasks. These he enumerated to the Council.

No 'Personal Reasons'

Councilman Robert E. LeMire said he believed the position was unnecessary and that he was opposed to providing for it in the budget.

Councilman Jacob Bink said he had previously voted against including the position in the budget and would do so again. He described the present holder of the position as a "swell fellow" and said no "personal reasons" were involved in his opposition to the position.

Councilman Edward J. Cox supported the city manager in the contention that the assistant is needed, pointing out that Escanaba is the only city in the Upper Peninsula which has civil service for its employees and owns and operates four municipal utilities.

Councilman Wesley Hansen said he is "for economy" but he believes the administrative assistant is needed to help in personnel and other matters, and suggested that a survey of his services be made before the Council made a decision.

Starting Salaries

Among minor reductions in the budget the Council cut \$300 from city planning to pay for the services of Elmer Krueger, Milwaukee, who has been retained by the city for several years as a planning consultant. An item of \$100

for planning conferences was also eliminated.

Councilman LeMire and Mayor Yelland questioned whether starting salaries for girl stenographers and clerks is not too high at \$2,400 per year. The city manager said he did not believe that figure was too high.

Mayor Yelland was of the opinion that \$2,400 a year was too much for the city to pay "untrained and inexperienced girls just out of high school," and said it was a higher salary than that paid in private business.

The department of finance budget was cut by \$1,000 for pay for occasional clerical help.

Lower Gas Rate?

In discussion of the steam and gas plant budgets the Council was informed by the city manager and Joseph Paterick, superintendent of that department, that certain changes in rates and operation might make a better financial picture in the gas and steam budgets in the year ahead.

A "slight" rate reduction in city gas is contemplated, so the city will be in a better position to compete for customers with the bottle gas distributors, the city manager reported. Paterick said the city is selling more gas each month than in comparative months one year ago, despite a reduction in the total number of customers. However, the number of customers is being encouraged and is growing.

The steam utility is expected to show a loss again in 1954-55 after payment of taxes and interest on investment to the city, it was reported. In discussion it was brought out that the Chicago & North Western Railway is interested in becoming a customer to heat and power its shops.

The Council following discussion recommended the manager and utility superintendent to contact the railway to see if some arrangement to serve them could not be worked out.

Included in the waterfront development budget proved by the Council is an appropriation to finance improvement of a site in Ludington Park where a bandshell is to be constructed next year.

Four Sentenced For TV Thefts

MARINETTE—Four Marinette men were sentenced Tuesday by Marinette Circuit Judge Arnold F. Murphy on charges of breaking and entering the G. M. Popkey warehouse in Marinette and theft of television sets.

Curtis Goodlet, 29, was sentenced to one year in Waupun prison while Alvin Doberstein, 40, was sentenced to serve 90 days in Marinette County jail.

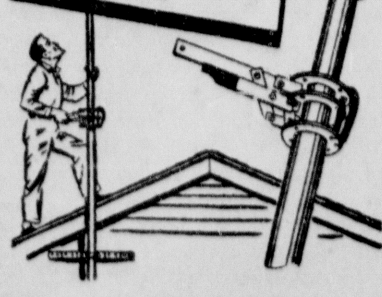

Emmet Anderson 44, and George C. Ruggles, 27, were each placed on two years' probation. They were ordered to make restitution in the amount of \$125 and pay \$25 court costs within the first four months and were forbidden to touch intoxicants or to enter taverns.

Action against Mrs. Marie Meyers, 40, of 306 Terrace Ave. charged with receiving and concealing five stolen television sets, was continued.

Warm Tomorrow Local Forecast

Slightly warmer temperatures for tomorrow are forecast by S. E. Decker, of the Escanaba Weather Bureau. The change, however, will be very slight — a few degrees warmer than the high of today. There will be less cloudiness and winds from the south.

Yesterday's high was 50, which fell to 41 early this morning. By 10 a. m., the reading here was 48 and the high this afternoon will reach about 55.

Park Falls and Houghton were among the cool spots in the country this morning, having a low of 35 and 32 respectively. Marquette had a high of 45 yesterday.

Sportsmen's Club Considers Campsite

Feasibility of using a site near Willow Creek for a club house for the Delta County Sportsmen's Club will be investigated by a committee headed by George Snyder. Members of the club selected the site from five proposed at a meeting in Carpenters' Hall Tuesday evening.

Roy Olson, William Elliott and James Rouman reported on the meeting of District 19 of the Michigan United Conservation Clubs, which was held on May 8 at the Wolverine Conservation Club's building at Baraga. Ed Fortsman of Caspian was elected district director at the meeting.

The meeting was followed by the showing of some of William DeCock's movies of fishing and lunch was served by a committee of teen age members of the club.

Body Of Marinette Man Discovered Floating In River

MARINETTE—The body of Ivar Malmberg, about 60, of Marinette, was found floating in the Fox River at Green Bay Tuesday morning.

Malmberg, who rented a room at the home of Mrs. Celia Nohr, 1922 1/2 Carney Ave., carried a rent receipt for May 2 in his wallet. Police said his body apparently had not been in the water long.

The body was removed to the Blaney Funeral Home in Green Bay pending further information and investigation.

Harnischfeger Reopens Today As Walkout Ends

A strike at Harnischfeger Corporation's truck crane and welding plants that began 12 days ago ended at 7 a. m. today when 614 employees returned to their jobs following agreement on terms of a new labor contract with Local 632 UAW-CIO.

The union membership in special meeting last night at Croatian Hall voted 247 to 55

to accept contract terms covering seniority and temporary lay-offs, over which a dispute caused a breakdown in negotiations and a walkout on April 30.

A one-year agreement is being signed today, incorporating the following:

That the company has the right to lay off an employee for 15 days in any contract year without the employee invoking seniority rights, if the layoff is due to lack of materials or breakdown of equipment.

Aid In Settlement

The strike closed Harnischfeger operations here and idled 614 employees, of whom about 75 per cent were members of the union.

Meeting of the union membership last night followed a day devoted to an exchange of proposals between Harnischfeger Corporation representatives and the executive board of the union. Escanaba Mayor Harlan Yelland and Gerald Ford, labor mediator, assisted management and union in the negotiations.

Mayor Yelland represented the Escanaba City Council, whose offer of service in efforts to settle the dispute was accepted by both the company and the union.

Only Disputed Point

"Both management and labor were very cooperative and cordial in responding to the city's

offer," Mayor Yelland said. "We appreciate their willingness to work out a solution to the benefit of the community."

The temporary layoff and seniority clause was the only point in dispute in the proposed new contract. Under the agreement approved by the union last night the company has the right, if there is a lack of material or a breakdown of machinery, to lay off an employee for 15 days in any contract year without the employee invoking seniority rights.

The waiving of seniority rights on temporary lay-offs due to the above causes will avoid extensive bumping of jobs down the line, which would disrupt production.

50,000 Red Pine Seedlings To Be Delivered Friday

Fifty thousand red pine seedlings will be distributed for planting to cooperating members of the Delta County Soil Conservation district according to Irwin Ten Haken, the conservation district representative.

The seedlings are to be planted for use as wind breaks or for reforestation purposes and may be had at a nominal rate of one cent per tree.

Those eligible to receive them may call at the exhibition building of the Upper Peninsula State Fair between the hours of 9 a. m. and 5 p. m. Friday.

About 8,000 spruce seedlings were distributed last week according to Ten Haken.

More people get more news from newspapers than from all other sources combined.

Board Chooses Harris Trust

The Escanaba Board of Education last night accepted the proposal of the Harris Trust, Chicago, to serve as investment agents of the Anna C. Norton scholarship fund.

The fee for this service will be one-half of one percent on the first \$100,000 of invested funds and one-quarter of one percent on investments in excess of \$100,000. The scholarship fund will be more than \$500,000.

The Harris Trust advised the Board of Education that one-third of the trust funds will be invested in selected stocks and two-thirds in bonds. Last year the Harris Trust investments yielded 3.8 percent.

It is the intention of the board to use only the earnings for scholarship grants.

The amount of money available for distribution to scholarship winners this year is estimated in excess of \$10,000. The board now has approximately \$100,000 invested and the earnings of this fund will be supplemented for this year's scholarship distribution by the earnings of the Escanaba Daily Press from the period Feb. 18 to the date of transfer of the newspaper to the new owners. Feb. 18 is the date that the executor of the John P. Norton estate, James Frost, assigned the newspaper to the School Board in a partial distribution of the assets of the estate.

Details of the scholarships will be worked out by a scholarship committee comprising members of the faculty of the Escanaba High School and members of the Board of Education. It is indicated that some of the scholarship awards will be distributed over four years of college for the recipients.

The Board of Education will confer with Harris Trust officials concerning the possibility of investing some of the Catherine Bonifas funds bequeathed to the School District.

Two Classrooms Added To J. A. Lemmer School

The construction of two additional classrooms on the John A. Lemmer elementary school was authorized last night by the Escanaba Board of Education.

The increased cost for the additional classrooms will be \$15,494 in the general contract, \$1815 for plumbing and heating and \$999 for electrical additions.

Funds for the additional classrooms are available from money given to the Board of Education by the late Mrs. Catherine Bonifas before her death and is in addition to her bequest of \$150,000 for special education.

The construction of additional classrooms on the Lemmer school may make it possible to close one of the existing old school buildings as an economy measure, it was indicated.

Urges Windstorm Insurance—Charles Cook, Wausau, Wis., insurance specialist, and A. J. Goulet, president of the Escanaba Insurance Agents Association, appeared before the Board of Education last night to urge the board to write extended coverage endorsements on the fire insurance policies for school buildings.

Cook pointed out that windstorm damage and hail damage to school buildings have been extensive through the Middle West. These losses are not protected by standard fire policies unless extended coverage endorsements are written. The cost to the Escanaba schools for this endorsement would be \$4,634.68 for five years, or an average annual cost of \$926.64. The schools now carry a total of \$1,874,450 insurance on buildings and \$251,550 on contents.

Cook also suggested that the school district might consider vandalism and malicious mischief insurance for protection against a "growing wave of vandalism."

The Board awarded the buildings' risk completed value insurance for the new John A. Lemmer school to the Escanaba Insurance Agents Association.

Four Teachers Resign—The resignations of four teachers were presented and accepted by the board last night. They are Irma Bangs, a Senior High School English teacher for 27 years; Jacqueline Maloney, Junior High English teacher; Mary Caddy, Webster School; and Audrey Nydahl, Webster School. A contract for Helen Masterson to teach a first grade class was approved. Miss Masterson has been secretary to Charles Folio, Upper Peninsula director of the University of Michigan Extension Service.

Other actions taken by the board last night follow: Authorized the purchase of an electric typewriter by the commercial department of the Senior High School.

Accepted with thanks a \$150 scholarship from the Escanaba Woman's Club.

Accepted performance bond of the Baker Construction Co., general contractors for the new elementary school.

Rejected a proposal to hire a clerk of the works for the new school.

Approved participation in the Upper Peninsula distribution of Federal surplus equipment.

Received report from Principal E. E. Edick of the grades earned by EHS graduates at colleges and universities.

Authorized the closing of schools Monday, May 31 in observance of Memorial Day.

Approved the discontinuance of the veterans agriculture program at the completion of this fiscal year.

Approved the issuance of diplomas to seniors as recommended by the high school principal.

Pleds Guilty To Drunken Driving—Frederick V. Deno, Escanaba Rt. 1, pleaded guilty in justice court before Justice Caroline A. Nyström this morning to a charge of operating a motor vehicle while under the influence of liquor. He was sentenced to pay a fine of \$50 and costs and his operator's license was revoked. The fine and costs were paid.

Deno was arrested Tuesday evening in Wells township by a member of the staff of the sheriff's office.

Letters To The Editor

FARMERS' SUBSIDY

Cornell, Mich., May 5, 1954

Dear Editor

Perhaps many of our city dwellers and also a goodly number of farmers do not realize that 2 million of our larger, highly mechanized farms produced about 85 per cent of our agricultural goods in 1953. On the other hand 3½ million small farms produced the remaining 15 per cent.

In other words, if we were talking about 11 farmers growing 20 tons of potatoes, the above ratio would show that 4 farmers using the most modern methods grew 17 tons of potatoes, while the other 17 farmers produced

only 3 tons because they had to resort to methods used ordinarily by the "little farmer."

These facts being as they are, who is the farmer that will benefit most by support prices or subsidies? The "little farmer" always "hollers" most to what avail? Hadn't he better ponder awhile and do a little head scratching? After that, if he is wise, he may decide to sit tight and be happy without subsidies. In other words, who gets the "lion's share" of any subsidy?

Sincerely Yours, Mrs. Elmer Nelson

Doctor Denies Wife Poisoning

KANSAS CITY (AP)—Dr. Hugh G. Hamilton, wealthy Kansas City obstetrician, entered an innocent plea Monday in an unusual hospital room arraignment on a charge that he attempted to poison his wife.

A preliminary hearing for the 49-year-old physician was set for July 6. Four physicians and a bank president posted bond of \$10,000.

Dr. Hamilton was charged with attempting to kill his wife Martha, who is in the hospital undergoing treatment for a hip fracture suffered in a fall.

He was accused of substituting cyanide tablets for digestive aid tablets his wife was in the habit of taking.

Officers said the charge was based on information supplied by Mrs. Hamilton. They quoted her as saying her husband had not been well for some time. Dr. Hamilton called the accusations "fantastic and absurd."

Runaway Boy, 15, Found In Hideout 20 Ft. Underground

By JOHN BAUSMAN
NEW YORK (AP)—A teen-age runaway, who for 12 days kept house in an unused subway cable-splicing room, has been evicted from his hideout 20 feet below a busy street intersection in Brooklyn.

The youngster, Robert C. Lindahl, 15, had equipped his neat bachelor quarters with an old auto seat for a bed, a rickety wire chair and other comforts salvaged from a dump. A picture of a basket of flowers adorned the wall.

The boy told police he had discovered the underground room while playing with friends, and decided to move there in order to escape school and his father's rule about being home by 8:30 at night.

Police discovered Robert asleep in his secret lodgings Monday after a friend who had been entertained there let the boy's family know where he was.

It had been a lot of fun, Robert said, "but I won't do it again. The police said they'll put me in a real hole—with bars—next time."

Robert collected as much as \$3 a day in handouts and tips for running errands. However, his resources had dwindled to 2 cents by the time he was sent home.

Empty bottles and cans in his hideout showed his meals there consisted of root beer and beans.

LOST IN TRANSIT

MEMPHIS, Tenn. (AP)—A trailer truck loaded with 28 head of Brahman cattle was barreling through the Mississippi when the tailgate fell off. In Memphis the driver found one lonely cow in the truck.

A motorized roundup found 18 of the animals, three so badly injured they had to be slaughtered at once.

To Demonstrate New Method Of Garbage Burial

A program and demonstration in sanitary land fill, to be attended by municipal officials and administrators of Upper Peninsula cities, will be held in Escanaba tomorrow.

The new and approved method of garbage disposal is in use in several Michigan cities and is recommended by public health agencies as the answer to the problem of controlling rats, flies and vermin that infest the old-fashioned "open dump" method of garbage disposal.

The program will open at 10 a. m., in Escanaba City Hall and the demonstration of the sanitary land fill method of disposing of municipal garbage will be held at 2 p. m., at 19th St. and 4th Ave. S.

Operation of the landfill plant, including discussions and moving pictures, will be presented at the morning session in City Hall. Mayor Harlan Yelland will welcome the delegates from other Upper Peninsula cities.

R. L. Johnson, Upper Peninsula engineer for the Michigan Department of Health, will preside. All interested persons are invited to attend.

Appearing on the program will be the following:

Ray H. Ebl, Fruehauf Trailer Company, garbage pickup; Frank Young, Brebner Machinery Company, sanitary landfill; W. K. Berglund, Bark River Culvert & Equipment Company, film and discussion; Fred B. Kellow, Michigan Department of Health, illustrated discussion of the sanitary landfill program in Michigan.

Doctor Dies At 85

ERIE (AP)—Funeral services will be held Thursday for Dr. Silas V. Dusseau, physician in Erie for the last 61 years. He died Monday at the age of 85. He practiced medicine up to the time of his death.

New Jersey Folks Ride Belt To Work On Moving Sidewalk

By SAM DAWSON

AKRON, Ohio (AP)—Conveyor belts— which have been lugging coal and ore and the like for years—are going to tackle commuters within two weeks.

New Jersey citizens who use the Erie Railroad and then the tubes under the Hudson River to get to work in Manhattan will be taking their first rides on a moving sidewalk in Jersey City.

The belt could care for almost 11,000 foot - sore commuters an hour. The greater part of it covers a 10 per cent grade. It's supposed to ease pedestrian traffic jams as well as weary muscles.

Teachers Or Gum May Give Small Boys Temperature

OKLAHOMA CITY (AP)— Easy, Dad, don't rush for the doctor every time Junior's temperature zips above the standard 98.6.

He may have nothing more than a case of "bubble gum fever." Worse yet, it may be a case of "school fever," once a standard joke among small fry, and now a scientific fact.

The truth is, explains Dr. Fred M. Taylor, Houston, Tex., pediatrician, lots of things may bring junior's temperature to a boil—not just some pesky bug.

Taylor addressed some 500 Oklahoma doctors Monday at the State Medical Assn. convention.

"Some child may be having trouble getting along with his teacher or playmates," Dr. Taylor explained. "This emotional upset may cause his temperature to rise. The pediatricists refer to this as school fever."

Even chewing can make junior's temperature rise above the 98.6 mark. He said a perfectly normal child may have a temperature of 100 or 101 degrees "just from exercise itself." That includes bubble gum chewing.

Dr. Taylor advised parents not to rely on the thermometer to tell when danger is at hand.

"Too often they feel the temperature should be stuck at that little red arrow. It is normal to vary. A child may go for weeks or months with an afternoon elevation of temperature. Let the child rest 30 to 45 minutes and then take his temperature."

Must Salute Flag

TAIPEH, Formosa (AP)—Opposition from a small group of missionaries has brought no change in a rule requiring school students to salute the Chinese Nationalist flag and bow before the portrait of Dr. Sun Yat-sen, founder of the Chinese republic. Since April 18 students who violate the rule are expelled from school.

President Condemns Supplying McCarthy With FBI Secrets

WASHINGTON (AP)—President Eisenhower today called it so reprehensible for any Army intelligence officer to supply confidential FBI data without authorization. He was asked specifically about an incident related by Sen. McCarthy, but Eisenhower said he would only discuss the principle involved.

The President also told his news conference in a comment on the international scene, that the free world ought not to write off Indochina.

At the outset of the conference, a reporter told the President that Sen. McCarthy had testified last week that an Army intelligence officer supplied him with classified FBI material.

Principle Wrong

The newsmen went on to say that Atty. Gen. Brownell later said the material should not be made public. Eisenhower then was asked to comment on the "propriety" of the Army intelligence officer's delivery of such data to McCarthy without authorization.

The President recalled that he said at his news conference last week he was thinking of taking a vacation from replies to questions dealing with McCarthy.

He added he was not going to comment on the aspect of the question as it related to McCarthy.

The President then went on to discuss the principle of the situation raised by the reporter's question.

He said that in a case where an individual officer gives away classified information, it is so reprehensible.

May Locate Officer

Eisenhower said that was especially so in the case of security material which must be kept secret.

The President said that when enlisted men enter the armed forces they take an oath to obey the regulations and their superiors.

Eisenhower then asked whether we are to assume that an enlisted man can adopt one kind of loyalty

and an officer another kind. Answering his own question, the President called that perfectly ridiculous.

H added that whenever we get to that kind of a situation in the armed services, we had better disband them.

Later in the news conference, the President said in reply to another question he did not know whether any investigation was being made to try to locate the intelligence officer who McCarthy said provided him with the FBI data. The Army has said it is conducting such an investigation.

Upper Peninsula Briefs

IRON RIVER — Committee workers of the Ottawa tourist association have launched a fund drive to obtain about \$5,500 for the operation of the tourist information bureau at the Twin parks and for advertising promotions.

IRON MOUNTAIN—Three national officers of the Women's Catholic Order of Foresters, in addition to representatives from every court in the state are expected to attend the state convention to be held here on Thursday.

ISHPEMING—Inland Steel company mines expect no change in their present five-day schedule. Ray Satterley, general superintendent here, states that no change could be foreseen at present for the Greenwood and Morris mines, although changing business conditions could alter the situation.

BESSEMER—The Steiger Lumber Company saw mill, which was destroyed by fire on April 1, will be rebuilt on the site of the former mill. The announcement, by Paul Steiger, manager of the local operations of the company was greeted enthusiastically by the entire community. The industry, established here on June 24, 1946, has become an integral part of the community and a valuable industrial asset. Steiger and his family have been active leaders in community affairs. The possibility that they might have become established elsewhere, caused considerable anxiety in the community.

IRONWOOD —City of Ironwood street department crews were completing what city officials hoped was the last snow removal operation of the season, the latest date for snow removal in the history of Ironwood, so far as its known. Snowfall last week amounted to 24 inches to Thursday noon. A year ago the temperature in Ironwood reached a high of 80 degrees.

MARQUETTE —Following a rather lengthy public hearing on the matter, the City Commission Monday night adopted an ordinance regulating the installation, repair and maintenance of television and radio receiving antennas and towers. Administration of the ordinance will be carried out by the Light and Power Department, and permits will be issued and inspections made by the city electrical inspector.

Butter Sellers Must Pasteurize

LANSING (AP)—Farmers must pasteurize the milk they make into butter and sell directly to the public, Atty. Gen. Frank G. Millard held Tuesday.

Millard said state law permits milk products to be sold from the farm without pasteurization, but that the exemption does not apply to the making of butter. The opinion was asked by prosecuting attorney Robert H. Campbell of Clare.

In another opinion, Millard said that a member of a board of supervisors may resign and be appointed immediately to a county road commission. The opinion was requested by prosecuting attorney Russell L. Shepherd of White Cloud.

In another opinion to Campbell, Millard said that only a coroner may authorize the removal of a dead human body from the scene of an accident if he is in the county and available. If not, a justice of the peace has that authority.

Divers See Lure In Sunken Gold

FRANKFORT (AP)—A five-man team of divers is completing a survey of the Lake Michigan bottom off Benzie County. They say their purpose is a hydrophysical study for sand, gravel and oil firms.

But residents of this area like to think they really are searching for sunken treasure, and particularly the \$40,000 in gold and the 100 kegs of whiskey reportedly in the hold of the ancient wreck of the Westmoreland.

The expedition's captain, Harold Van Niman, a master diver from Flint, says he may have a look into the Westmoreland legend after the survey is complete. He says his men have found and charted at least five wrecks in the lake off Platte Bay.

Issuing intricate electronic devices lake bottom and core drill samples, the divers are operating as a unit of the United Salvage Co., with headquarters in Flint.

Van Niman said the information obtained will be coordinated into a comprehensive survey that covers the entire Great Lakes system.

Other members of the crew are Don Hockins, relief diver, George Hal, Bill Clinton and John Walton, all of Flint.

Van Niman, 30, has been diving since 1938. In World War II he was an underwater demolition expert for the Navy and Marine Corps. Last year he worked on one of Michigan's most publicized treasure hunts—the search for 500 tons of copper aboard the 1870 wreck of the Kitty Reeves off Waukegan Point in Lake Huron.

Van Niman said he definitely was interested in the Westmoreland wreck when the present survey is completed. The wreck is reputed to be about 100 years old. Numerous attempts to find out if the whiskey and gold exist have met with failure.

Godfrey To Get Checkup On Hip

BOSTON — Radio-TV star Arthur Godfrey will have a check made of his year-old hip operation within a week or 10 days.

Bone specialist Dr. Otto Aufranc, who has been handling the Godfrey case since the death of Dr. Marius N. Smith-Petersen, will go to New York to make the checkup, a Massachusetts General Hospital spokesman said Monday night.

The hospital announcement came after the entertainer told his TV-radio audience, "I've got to go back to the hospital and have it (the operation) done all over again" because there is "something mechanically wrong" with the hip.

The original operation, performed last May by Dr. Smith-Petersen, replaced the shattered hip bone with a new ball and socket joint covered by a metal mold. Both Godfrey's hips were smashed in a Washington automobile accident more than 20 years ago.

Dear Congressman:

The time has come to start cutting down our terrific tax burdens.

After a whole generation of deficit spending, many of us have become used to it. Others never knew anything different. But that doesn't prove it's normal — or right. Certainly there's nothing normal about a national debt of \$273,000,000,000! The largest national debt of any nation in the world.

Today, the average American family is turning over more than one-third of its total income (34.2%, to be exact) to the government in direct and indirect Federal taxes. That's too much money to spend for government! We want something done about it— just as soon as possible.

We know it's a tough job. We know it will take time to balance our national budget. But it will also take some drastic action. Are you energetically looking for ways to eliminate government waste? Are you doing everything you can to help cut taxes? That's the job to be done now!

Lower taxes and a balanced budget will help to build the confidence of the people. Everyone wants a sound and stable currency — a solid economy. That's what makes good jobs and keeps the country prosperous. Let's get going.

Yours truly,

John B. Citizen

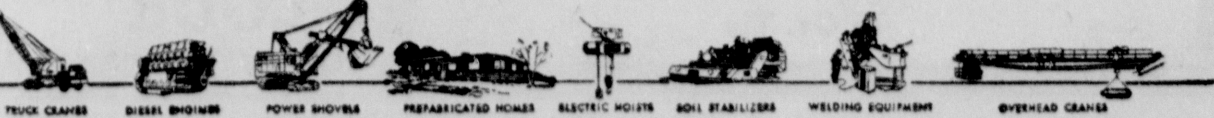

Remember, your congressman works for you. He wants to know what you think. He wants to please you. Write him. If enough people take enough interest to write enough letters to enough congressmen, we'll get many things done — much faster!

THE STORY: Ricky Madison, 16, wants a "hot rod" because several of his friends have cars they have rebuilt. Against the advice of his parents, he withdraws his savings from the bank, where his father is cashier, and offers to buy a junker from a disreputable dealer for \$65.

Merle Connor scratched his unshaven chin. He had Ricky in his pocket now. The thing was to keep the price down to what he was sure the kid would be able to pay. It could go up a little more. "Well," Merle said reluctantly, leaning against the coupe. "Sixty-five was the cash price. On terms, it would have to be \$75. Book work and all that stuff. And I think that other feller might be back with a cash offer of \$65. The one I told you about, I imagine he'll go up another five. Sure would like to see you have it, of course, but can't just give you \$10, can I?"

"I guess not," Ricky said. All he knew was that he had to have the car before it was bought out from under him. "I guess I can do it for \$75." "You won't regret it," Merle said, taking Ricky's \$50 and tucking the bills in his overalls. "Clean that car up a little and you can probably turn right around and sell it for a hundred."

Ricky followed Merle into the garage where he signed to pay the remaining \$25 in 25 weeks, and the deal was over. It was Ricky's car. Merle took an ig-

niton key from the nail where it had been hanging, and handed it to Ricky. "She's all yours," he said in a tone of relief. "Don't drive too fast, now." Chuckling at his own joke, Merle went into the large part of the garage where he had a flat tire to fix.

Ricky looked at the tarnished key in his hand. He felt different. Like he'd come to Merle's garage a kid, and suddenly turned into a man. He wasn't a kid any more. He had a car. He'd caught up with the other guys. He was as big and as independent as anybody... even his father. The difference between a kid and a man was something you had to discover for yourself.

When Ricky walked out of the garage toward his car, he noticed things that had escaped his attention before. Now that he had 50 in the car and owed another \$25, he saw for the first time that the tires were so bald the cord showed in patches on two of them. There was a sag to the left that suggested a broken spring, and an appearance of being out of line that indicated the car had been wrecked, and maybe had a sprung frame.

He climbed in the car carefully, wiping his feet on the grass outside before placing them on the filthy floorboard. He held the key tightly between the thumb and forefinger of his right hand, and his hand trembled as he inserted the key in the ignition lock. He turned the key, shoved

in his clutch and kicked the starter.

It wouldn't start. Merle looked out of the garage. "What's the matter?" he yelled. "Can't you start?"

"She won't catch," Ricky looked hopefully at the mechanic.

Merle strolled toward the car with maddening slowness. He poked his head inside and looked at the dash. "For one thing," he said laconically, "you're out of gas. I had about a gallon in the tank, but I guess one of your friends must have took it."

"Gas," Ricky said, feeling like a fool. "Yeah."

Ricky felt in his pockets. Not even enough for a gallon. He'd hoped Merle would offer to fill the tank for free, as a gesture in honor of the purchase, but he was afraid to suggest that generosity to Merle.

"How about adding a dollar's worth to my account?" Ricky asked, trying to sound casual.

Merle hesitated. "Well, all right," he said, reaching for the hose.

Ricky got back in his car with a feeling of relief. Once was all he'd need of Merle's cheap gas. After this, he would be getting the best ethyl gas from one of the good stations, and after that, he'd be burning his own fuel mixture.

This time the car started. Ricky let it idle a moment to warm up. Also to give himself time to get up nerve to put the car in gear and drive away. It wasn't that he didn't know how to drive, he'd driven his friends' cars enough to have confidence in his ability. He didn't know where to go.

A happy inspiration struck him. The lake!

He started the car, driving toward the lake. In low gear he tromped on the gas pedal, tearing the insides of his car as his wheels spun in the loose gravel. In second he held it wide open, trying to find out how fast it would go in that gear. Thirty-nine! A miserable, crawling, creeping, shuddering, wavering 39!

The car kept trying to leap off the left side of the road, but he gripped his teeth and fought it back. Another turn came up. Turns were frequent on this back road. He glared at it as though it were a personal enemy. This time like a race driver!

He hit into the turn with inertia in full contempt of his attempts to pull his front wheels around. Because he could slide he didn't roll, but he was sliding toward the ditch, his hands glued to the useless wheel.

He felt his wheels leave gravel for grass. The rear wheels touched first, were slowed, and the front end of the car slammed around to head toward the fields. Momentum carried the car forward, throwing Ricky from side to side as the coupe left the road and headed into a shallow, broad ditch.

(To Be Continued)

THAT'S THE TIME!

OMAHA (AP)—Military habits are hard to shake. A visiting Army officer found a note in his hotel box to "Call Mr. Smith AT-0300." Not acquainted with Omaha telephone exchanges (AT stands for Atlantic), he interpreted the message in military language as meaning to call at 0300 hours—or 3 a. m. So he called Mr. Smith at 3 a. m.

Danforth

Square Dance

DANFORTH — The Danforth-Newhall 4-H club closed its activities with a square dance Friday evening at the Danforth School. About 60 young people, including members and their guests, were present for the dance. Fred Barnhardt, agricultural agent, called the dances, and Lloyd Sodergren and his Rhythm Ranch Hands furnished the music.

Chaperones at the dance were Mrs. William Lavallie, Mrs. Raymond Lamarche, Mrs. Wallace Irving, Mrs. Arthur Anderson and Mrs. Harry Blixt. At the close of the evening, lunch was served.

Bird Cuts Power

OXNARD, Calif. (AP)—Hundreds of Oxnard residents were almost an hour late to work Monday because a bird flew low over a 16,000-volt power line with a piece of wet string and short circuited the Southern California Edison Co. lines. This caused a circuit breaker to cut the power from a 66,000-volt power line feeding Oxnard.

The bird got away with his life.

New Floor Care Ends Waxing

One of the most difficult jobs of housekeeping is to keep linoleum and asphalt tile floors waxed and gleaming. Now, thanks to Glaxo, it is no longer necessary to wax and scrub. All you do is apply Glaxo with a brush about twice a year. It maintains a high lustre, non slip coating that seals out dirt. Glaxo dries in one hour and is water clear. It's cheaper than wax in the long run, besides saving a terrific amount of work, plus truly a beautiful floor. Glaxo is available at the Fair Store, Escanaba. (Adv.)

Plymouth

is your "best buy" in the lowest-price field!

Recently a 1954 Plymouth and current models of the other two best-known low-price cars were taken apart by Plymouth engineers and compared, part by part. Standard "stock" models were used. We've listed some typical findings below.

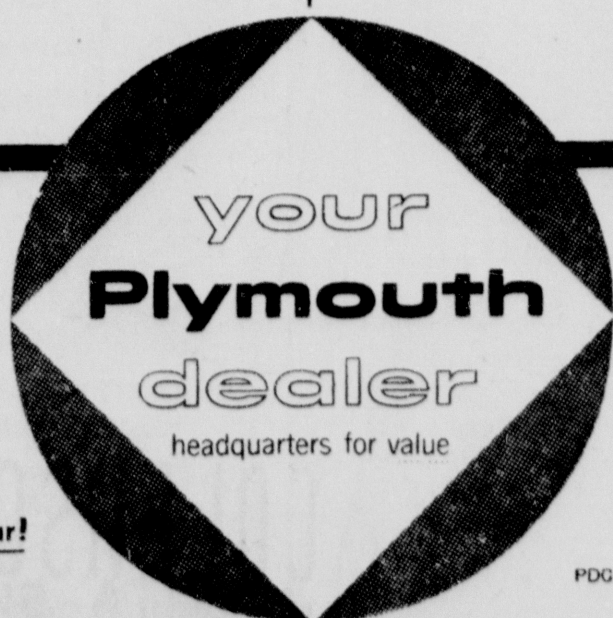

Plymouth is "best buy" in many ways. Here are just a few!

	low-price Plymouth	low-price car "A"	low-price car "B"
Front Wheel Brakes Plymouth engineers provide two hydraulic brake cylinders in each front wheel brake to ensure smooth, controlled stops without "grabbing." The "other two" in the lowest-price field have only one.	2	1	1
Seat Springs Plymouth uses coil seat springs since they give longer-lasting support. The other two cars have a zigzag platform type. Also, Plymouth's front seat "springs-on-springs" design adds more comfort.	2	1	1
Piston Rings Plymouth engineers use four rings on each piston, resulting in decreased carbon deposit; more consistent power output. Top ring is chrome plated to give greater oil economy, allow faster "break-in" driving.	4	3	3
Body Mounts Plymouth's thick live-rubber body mounts prevent metal-to-metal contact and protect body from shock and vibration. Just look at the difference between Plymouth's mounts and the thin type used by the "other two"!	2	1	1
Micronic Oil Filter This unit, standard on most Plymouth models, keeps abrasive dirt out of the engine, thus reducing wear and achieving greater oil economy. This feature is available at extra cost on the other two low-price cars.	1	1	1

And dozens of other part-by-part comparisons prove Plymouth is your "best buy"! See us today... and get the facts!

Ask us for the big illustrated booklet that shows how Plymouth leads in frame construction... engine design... performance... economy... comfort... safety. Then...

Orpheus Choral Club Gives An Outstanding Performance

The Orpheus Choral Club has merited sincere words of praise for past performances but it rates superlatives for its annual Spring Concert last evening at William W. Oliver Memorial Auditorium.

Music lovers who have learned to expect the best from Orpheus and have yet to be disappointed filled the auditorium to near capacity for the program.

They enjoyed a happy combination, a chorus as much at home with sacred classics as with show tunes, a director, Claire H. Garrard, who has the faculty of inspiring singers and listeners, an outstanding guest artist, Shepard Lehnoff of the Chicago Symphony Orchestra, and an accompanist, Helen Moore, who added to her regular duties an accomplished performance of a difficult task, accompaniment of the guest artist.

Personals

Jefferson PTA Closes Activities For School Year

Jefferson School parents and teachers at the PTA unit's last regular meeting of the year, held last evening at the school, were entertained by a program of music presented by Joan Hebert, Gloria Jackson, Gisella Kroeger, Susan Matheson, Roberta Anuta, violins, and Paula Gafner, cello, under the direction of Mrs. Clara Karas Somers, public school music instructor.

During the business meeting annual reports were presented by all officers and committee chairmen. Mrs. Glenn Matheson, PTA Council president, gave an interesting and instructive report on the activities of the state PTA convention which she attended recently in Saginaw. She also conducted the installation of officers.

Mrs. Jack Krogdahl, delegate to the district meeting in Menominee last week suggested that it is possible for the PTA to sponsor a series of recommended movie matinees for children in cooperation with the local theatres. Mrs. Ruby Swanson reported that the Delft theatre was willing to present the suggested series. The group went on record in favor of the project and passed a resolution urging the Escanaba PTA Council to sponsor the matinees during the summer months.

Refreshments following the meeting were served by a committee of the second grade mothers, Mrs. Roy Swanson, chairman, Mrs. Tom Fraser, Mrs. Omar Morey, Mrs. Alphenix Benard, Mrs. Bob Calouette, Mrs. Floyd Anuta, Mrs. Paul Bureau, Mrs. A. Chern, and Mrs. Devere Hinkson.

Debs Of Today Have More Sense, Meyer Davis Says

By DOROTHY ROE

Today's debutantes have better manners and more sense than did their parents at the same age, says Meyer Davis, orchestra leader who has been providing the music for society balls since World War I.

The indestructible maestro organized his first dance band back in 1915, while he was still in high school, and has been playing for presidents, potentates and society buds ever since. Recalling some of the big debutante balls of the 1920s, he says:

"During prohibition days practically every kid had a flask, and it was the smart thing to sneak nips between dances."

Booze No Novelty
"At most of today's deb dances the milk and coke bars are as popular as the regular bar. There's no novelty in drinking any more, and many of the kids are just not interested."

Among some of the most lavish deb parties at which Davis has officiated on the bandstand were: Barbara Hutton's coming-out party at the Ritz-Carlton hotel in New York in 1931; Doris Duke's party in Newport during the same era; Fifi Widener party in Philadelphia; and that of Ethel DuPont, in Wilmington. He also played at the wedding reception for Miss Du Pont and Franklin D. Roosevelt Jr.

But the most fabulous party of all, says Davis, was the debutante ball given for Joan Peabody, daughter of Mrs. Peter H. B.

ENGAGEMENT TOLD—Mr. and Mrs. Henry Koehler of Gladstone Rte. 1 announce the engagement of their daughter, Maxine Lois, to Roger Mattson, son of Mr. and Mrs. Fred Mattson, Gladstone Rte. 1. No wedding plans have been made. (Portrait by Millie)

Widener, of Philadelphia, at which a 90-piece orchestra played for 2,000 guests—a dance reputed to have cost \$100,000.

Cash Spread Out
"There used to be a lot of criticism of those big, lavish parties," says Davis. "People were always saying it was wicked to spend so

much on one dance, when the money could have been given to charity."

I don't agree with that theory. When a man wants to spend \$10,000 or more on a party for his daughter, he's dividing it among all the tradesmen and professional people who make their living that

"If It's New... We Have It"

902 Ludington St.

Do you have kid sister trouble? Who doesn't, you ask? Only sister-less teenagers, probably.

Big sister is almost always the injured party—in her own estimation, that is. She resents little Sis walking off in her best hat or trying to horn in on her dates or just not having enough sense to scam when the crowd is in.

Most times Big Sis wishes Little Sis was on a desert island surrounded by alligators.

Then some day both grow up and look back on their teens as having been a little mixed up.

So it was with Anahid and Maro Ajemian, equal partners today in a well-known violin-piano duo. Says Maro:

"I didn't think about little sister Anahid's role in our household until one day I overheard her telling her woes to mother. She wailed that she never was allowed to go out at night alone, while I was always off on roller-skating and "splash" parties with the gang, how she was burned up by having it thrown in her face at school that I had been the prize student in the class three years earlier, how she resented being bossed by me in our parents' absence, how she ate foods she loathed, simply because I had been fond of them. It suddenly occurred to me that a younger sister could have legitimate gripes."

Maro says she realized, too, that although younger sister got out of dusting and dishes, she was the one who did the errands. It was only when they agreed to switch chores occasionally that she realized that doing the dishes could be an easy chore compared to running errands.

The more Maro kept thinking about it, the more she realized

she had to apply the Golden Rule to her sister.

So she started with psychology. Says she:

"One day when our gang was planning a wiener roast and I knew Anahid would be nagging to come along, I beat her to the punch by suggesting she have her three best friends in the very night before for an old-fashioned taffy pull which I would show them how to run. She was so interested in this deal that she lost interest in the next day's project."

Another time Anahid's teacher was taking her class for a lunch and movie treat and Maro offered to lend her a red stocking cap with gold coins which she'd always had a yen for. She was

so happy with it that she blushing confessed she had really planned to walk off with Maro's brand new shoulder bag.

Soon, says Maro, Anahid gave up her borrowing habit. And by the time they were 20 and 17 respectively they were warm friends and shared each other's confidences.

Let that be a lesson to you next time little sister drools at sight of your new suit or the snacks you've prepared for your crowd. Treat her like you would a school chum or any of the kids in your neighborhood, instead of a household pest.

How far away is a helping hand?

Mr. George Cronin of Detroit found out recently. When he arrived home from his nighttime job at 3 A.M., he sat down to read for a while. His wife was visiting in Chicago so he was alone in the house.

When he got up to go to bed he felt a tingling in his arm. Seconds later he collapsed to the floor with a stroke.

Although he was barely conscious, Mr. Cronin knew he must somehow reach the telephone many feet away. With tremendous effort, inch by agonizing inch, he finally made it.

The operator who answered was Rosa Gies. Speaking with great difficulty he mumbled the telephone number of a friend. Miss Gies telephoned the friend who soon was at Mr. Cronin's side. Meanwhile, the operator remained on the line in case she could be of further help.

Mr. Cronin is now well on the way to recovery. After the incident he expressed his gratitude in person to Miss Gies. For her helping hand and his telephone had spared him hours of discomfort.

Farley Tells Of Phone Advances

"Speeding Speech" was the topic of a highly interesting talk given before the Gladstone Rotary Club Monday noon by Jack Farley, Menominee, district superintendent of the Bell Telephone Co.

Induction of two new members, Irving L. Fardal, superintendent of the Gladstone Division of the Soo Line Railroad, and Harrie Markham, proprietor and operator of the Gladstone Motel, with Dr. A. H. Miller presiding, preceded the talk.

Farley said that vast strides in speeding service had been made in the 20 year period preceding World War II and during that conflict many other advancements were made despite the fact that Bell laboratories were devoted in the main to research to help the war effort.

Electronic gun sighting was an outcome of the Bell laboratory work during this period and it also produced the idea for a machine which would switch toll calls transcontinentally without the aid of operators.

Installation of a national dial plan is now going forward and eventually you will be able to dial a party anywhere in the United States.

None need worry that operators will be eliminated for they still will be needed for collect and person to person calls.

Joe Corbiel, High School Senior who attended meetings the past month made his report and was succeeded for the next four weeks by Quinn Rasmussen.

Girl Scouts To Visit Lansing

Senior Girl Scout Troop No. 15 will make a motor trip to Lansing this weekend, leaving on Friday and returning Monday.

In the troop, which has been a unit for the last ten years, are Janet DeHooghe, Marlene DeMars, Mary Ann Frantz, Janet LaGault, Pat LeClaire, Noreta Louis, Joanne Morgan and Phyllis Thivierge. Mrs. Gus DeHooghe is their leader and Mrs. James Dehlin assistant leader.

Formed in 1944 the troop was under the leadership of Mrs. Clyde McGonagle until 1947 when Mrs. Gus DeHooghe became the leader.

The trip is being made by car and the girls will be accompanied by their leader, their Troop Committeeman Mrs. Ernest DeHooghe and Mrs. Martin Becker.

While away they will visit the state capitol, a museum, zoo, tour the Michigan State campus, attend an aquatic show at Michigan State, inspect the Oldsmobile plant and make a number of side trips. They will be housed while at Lansing in dormitory rooms at the Olds Hotel.

No Cause For Alarm; Water Supply Here Is Safe, Analyst States

Gladstone's water supply is perfectly safe and there is no cause for alarm, Miss Flora LaRoche, city water analyst said yesterday afternoon in response to a query made by the Press.

Tests made daily reveal that the city's water supply is safe to drink. Only on one day last week did the water show d-coli and in-jection of additional chlorine cleared this condition up as tests the following day showed the water to be satisfactory.

"Our water is not contaminated and there is no reason to fear an epidemic of disease," Miss LaRoche stated.

Brownish coloration of the water supply at present is caused by surface water running into the bay from a number of streams on Little Bay de Noc. This was caused by heavier than usual precipitation.

Gas Well Brought In Near Northville One Of Biggest In Midwest

DETROIT (AP)—A gas well believed to be one of the Midwest's largest was brought in Monday by drillers on a farm near suburban Northville. William R. Albers, directing operations, estimated the well would produce about \$5,000,000 worth of natural gas in the next 10 years.

The well is the third recent successful gas strike in the Washtenaw County area.

Albers, a 35-year drilling veteran, said the strikes give additional evidence of a major oil and gas field around Northville.

Charles H. Nerreter, owner of the farm which encompasses the new well, will receive a one-eighth royalty from the four-man Detroit investment group which financed the drilling.

Albers said gas has been struck in the well eight times in 54 days. He said gas pressure yesterday blew out a gauge capable of measuring 12,000,000 pounds. The new well was struck after drills had pierced a layer of hard rock at 4,317 feet.

Nerreter, 53, and his wife, Floss, moved to the 50-acre farm nine years ago. Only six months ago Nerreter was laid off from his job as a tool maker at the Kaiser Motors Corp.

Russel Johnson, Escanaba, engineer with the Michigan Health Department in the Upper Peninsula, in a letter to the City Commission Monday night stated that contaminated water coupled with a breakdown in the city sewage treatment plant could create a serious health hazard.

Johnson has been invited to attend the next meeting of the Gladstone commission on Monday, May 24.

A reception will be held immediately following in the church parlors.

The couple will reside at 2544 N. Kedzie, Chicago.

Escape From Ionia Prevented By Pigeons Who Attracted Guards

IONIA (AP)—A flock of pigeons helped break up an attempted escape by two inmates of the Ionia Reformatory Monday night.

Deputy Warden George Cropp said the prisoners climbed to the roof of a cell block with a 100-foot rope made of knotted sheets, intending to drop over the wall.

But the squawking of a flock of pigeons on the cell block roof attracted guards and the two men dropped 30 feet back into the prison yard, apparently afraid of being shot.

The would-be escapees were identified as William Charlton, 21, of Wexford County, and Robert Goote, 18, of Detroit, both serving terms for auto theft. Cropp said Charlton injured his back in the leap and was taken to the prison hospital.

Jail Frees Mothers

MEXICO CITY (AP)—Nineteen Mexican mothers were freed from the federal penitentiary on bail Monday—Mother's Day in Mexico—after a fellow inmate posted bonds for them.

The lady bountiful, a wealthy widow, couldn't get out of jail herself. She is charged with fraud totaling 4,000 pesos (\$320), and the law forbids bail in cases involving more than 3,000 pesos.

Decatur Players Gassed In Bus

DECATUR, Ill. (AP)—Seven members of the Decatur Commodores of the Mississippi-Ohio Valley Baseball League were found unconscious Monday night when a bus transporting the team from Danville arrived in Decatur.

Decatur police said the seven apparently were overcome by carbon monoxide gas which seeped into the bus. About 15 other players in the bus were not affected. All of the stricken team members were riding in the rear of the vehicle, police said.

All seven were revived at St. Mary's Hospital. Doctors said they probably would be sent home to day.

The stricken players are James Freeman and Joe Riney, outfielders; Bob Oeffinger, first baseman; Orlando Hernandez, catcher-outfielder, and Luis Herrera, Tony Rego and Orlando Zgrogan, pitchers.

The team was returning to Decatur after losing Monday night's game to Danville 12-6.

IN MEMORIAM

In loving memory of our dear mother and sister, Mrs. Mary Huff who passed away thirteen years ago today, May 12, 1941. We seem to see in the soft dim light, A face we loved the best: And think of her when the sun's last ray Goes down in the far off west. We miss you no less as the time passes on, Than we did on the day of your going. For absence can never close the door of our hearts, And the lamp of our love is still glowing. Your heart was the truest in all the wide world: Your love the best to recall: For no one on earth could take your place. You are still the dearest of all. Sons and daughters and brothers and sisters.

MANISTIQUE

Board Approves School Holiday

Closing of the Manistique Public Schools May 31 in observance of Memorial Day, which this year falls on a Sunday, was authorized by the Manistique Board of Education at a regular meeting Tuesday night.

The board also authorized purchase of two sets of reference works for intermediate grades and moved to ask Hoholik Plumbing company to replace flues in a boiler at Riverside school.

A proposal by the Midland Laboratories of Dubuque, Iowa, to sand and resurface the floor in the Junior High School gymnasium was accepted. The plan calls for the furnishing of a sander and supervision by the firm, with the school providing materials and labor.

The board also authorized participation of the school system in the U. P. distribution program for Federal surplus property.

Marlene Joan Bentjen, of Albion, Neb., has been engaged as an English teacher here next year. Supt. Arthur Hall reported, and only one more teacher, for vocal music, now is needed.

Miss Bentjen attended the University of Missouri in Columbia, and Wayne State Teachers college in Wayne, Neb.

Helicopter Rescues Couple Marooned On Snowy Alaskan Peak

FAIRBANKS, Alaska (AP)—An Air Force helicopter pilot, maneuvering his plane in the air currents swirling around lofty Mt. McKinley Monday rescued a flier and his wife who had been marooned for four days on the peak's snowy slopes.

After three days of 100-mile-per-hour winds and fog, Capt. Ralph Searle of the 74th Air Rescue Squadron landed the 'copter at the 7,500-foot level of McKinley and picked up Mr. and Mrs. Dick Collins of Fairbanks.

Collins' light plane crashed last Thursday as he attempted to land supplies to a party climbing the highest peak on the North American continent. Collins and his wife escaped injury.

committee announced plans to question him today but said that, for his protection, the time and place would be kept secret.

Legion Auxiliary Honors Gold Star Mothers Monday

A program honoring Gold Star mothers was held Monday evening by the American Legion auxiliary. Joanne Arrowood and Margaret Johnson offered a vocal duet, "Song of the Year," and a poem, "To Our Gold Star Mothers" was read by Joanne Arrowood.

Other numbers on the program were as follows: Song, "Heart of My Heart", Michael Johnson; Poem, "The Love that Shines In Mother's Eyes", Mrs. Alex Cooper; Song, "Mother", Mary Ann Walters, Carol Walters, Margaret Johnson and Joanne Arrowood; Prayer, Mrs. Samuel Anderson; Each Gold Star mother attending was given a yellow corsage. Pot luck lunch was served from a table decorated with yellow flowers and candles.

In card games which followed, Mrs. Samuel Anderson scored high in canasta, Mrs. Pearl Smith in 500 and Mrs. Minnie Hutchinson in bunco. The special award was given to Mrs. Henry Duquette.

Plans were completed at the meeting for Poppy Days on May 27, 28 and 29. Reports were received that Mrs. Rhoda Elberg is a patient at University Hospital in Ann Arbor and Mrs. Gus Michaels in Schoolcraft Memorial Hospital. Another member, Mrs. Frank Pavlovic is ill at her home.

During the meeting, Mrs. Alex Cooper reported that the book "Kew to Peace" had been presented to the library.

Church And Parsonage Lost For Back Taxes Given Back By State

SAGINAW (AP)—A Saginaw religious group has its church and parsonage back from the State Conservation Commission, after it lost both for failure to pay \$35.78 in taxes.

The commission decided to give the property back to the Latin American Assembly of God, but took a substitute piece of property nearby in return.

Meeting at Higgins Lake last weekend, the commission was pressed to find a way to return the property to the church — then finally resorted to a little used state law permitting the deeding of land to churches for public use.

Natali M. Solis, pastor of the church, said his congregation didn't know that the taxes were delinquent on the land, since they accrued before the land became church property.

Hospital Auxiliary Picks New Chairman At Spring Dinner

Mrs. E. R. Crook submitted her resignation as president of the Schoolcraft Memorial Hospital auxiliary, at the group's spring dinner meeting in the First Baptist Church Monday night, and Mrs. Russell Watson, first vice president, was named to succeed her.

Mrs. Crook is home demonstration agent for Alger and Schoolcraft counties and shortly will begin working on a full-time basis. Her resignation was due to the press of other duties.

The dinner meeting was opened with prayer by Mrs. E. T. King. Decorations were highlighted with Maypoles and spicette corsages.

Reports were presented by Mrs. E. J. Brenner, on the annual flower show and tea to be held in July; by Mrs. Ian McKilligan, on a book sale scheduled for July; and Mrs. Lydia Bouschor on activities of the flower committee.

During the meeting, members voted to sell newspaper subscriptions for additional revenue, and were informed that a desk chair and lamp for the hospital auxiliary had been purchased through the memorial fund. Large vases have been placed in the lobby and scelerium, it was reported.

The program included violin

selections by Noel Harbin and numbers by a vocal quartet consisting of Lionel Vail, Lowell Ellsworth, Alex Creighton and Clinton Leonard. Mrs. Helen McGlothlin who also played organ solos, accompanied the violinist and the singers.

Committee members in charge of the dinner, which was attended by 76, were Mrs. Herbert Hamill, kitchen chairman, with Mesdames William Turpin, Lionel Vail, Sam Peasley and Clarence Thorell assisting; and Mrs. Vilas Young, dining room chairman, assisted by Mesdames Don Hastings, William Hammill, Oscar Blomquist and Leonard Stoor.

Gulliver Youths Attend Conference

GULLIVER—A group of 10 young people from the Reorganized Church of Jesus Christ of Latter Day Saints attended a district youth conference in Sault Ste. Marie, Ont., May 7, 8 and 9.

The group included Ruth Beckman, Gloria Brock, Dick, Carolyn and Lois Nelson, Jessie Rosebush and Agnes and Art Watson. They were driven to the Soo in two cars by Miss Crystelle Reid and Elder Les Gardner, a visiting missionary from Australia.

A full program of recreation, study and worship was conducted.

Mrs. Young Heads Neighborhood Group

Mrs. Vilas Young was elected chairman, to succeed Mrs. Don Hastings, of the Neighborhood Group of the Home Demonstration Council at a meeting held Tuesday at the home of Mrs. Charles Burley in Manistique Heights.

Mrs. William Hamill was elected vice chairman, Mrs. William Wood, secretary-treasurer, Mrs. Nick Frankovich Jr., publicity chairman, and Mrs. Herbert Krause, flower fund chairman.

Members discussed plans for achievement day in Gernfask May 17, and the club's exhibit of its Christmas lesson. Mrs. Don Hastings will assist Mrs. Fred Hastings in presenting the exhibit during the program.

New officers elected by the

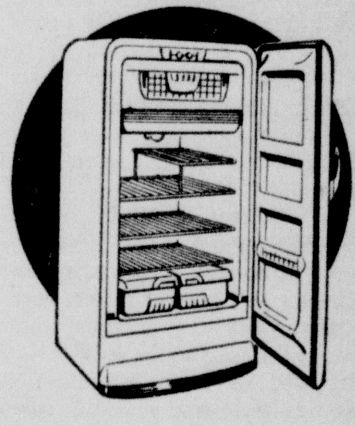

council will take office in September.

Eskymos Stretch Win Skein To 30

With Jim R... Escanaba Eskymos rang the bell for victory No. 30 in their amazing win streak that extends back to 1907 by trouncing the Ishpeming Hematites here yesterday, 13-3.

Escanaba pulled out to a 9-1 lead in the first three innings and Rouman began flooding the field with reserves, most of whom had never played in a high school game previously.

Starting pitcher Harlan Breitman worked four innings for the Eskymos, allowing only one hit, fanning six and walking four. He stepped down to allow three sophomores hurlers work the final three innings. Rick Erickson tossed the fifth, Bob Christie the sixth and Bob Ringuette the seventh. Christie and Ringuette allowed a run each while the trio fanned seven and walked six.

Collect 10 Hits			
The Eskymos collected the offerings of three Ishpeming hurlers for 10 hits and drew a dozen bases on balls. Starting pitcher Matt Bjorn walked a run in the first inning and gave up a double to the center fielder Jim Beck in the second which produced two more runs.			
Escanaba broke loose with a half-dozen runs in the third in-			

Little League Tryouts Will Be Held Saturday

Still shooting for a Memorial Day opener, the Escanaba Jaycee Little League will open spring tryouts Saturday afternoon at the Little League Field. Boys 10 years old and under will report at 1 o'clock while the 11-year-olds are asked to report at 2:30. The following Saturday the 12-year-old boys will be looked over by team managers along with an invitational list which will be issued after the weekend trials.

With the advent of the new Little League farm program players who may have been overlooked during the spring tryouts will still have an opportunity to play Little League ball this year. Patterned after the Stevens Point program, a last place team will have an opportunity to pick up one player each week in an effort to strengthen the club should the manager so desire.

A spokesman for the league said that the insurance policy

Butler Mound Star As Braves Win 5-3

STEPHENSON—The Gladstone Braves opened the 1954 baseball season on a successful note by beating the veteran Stephenson Eagles here yesterday by a 5-3 margin.

Coach Eldon Keil's Braves broke out of a 3-2 hole in the top of the seventh inning to score three runs on three singles, a walk and three Stephenson errors.

Norm Butler handcuffed Stephenson with a lone single by Bob Winters in the fifth inning. The junior righthander fanned seven and issued five bases on balls.

The Braves jumped off with two runs in the first inning when Butler walked and J. C. Miller was safe on an error. Duane Peterson poked a long double to drive in both runners but was nipped trying to stretch it to third.

Stephenson came right back with three runs in the last of the first. Four walks issued by Butler had the Braves in trouble. After the first inning Butler settled down and gave up only one more free pass to first.

Trailing 3-2 with two out in the seventh, the Braves exploded with three runs. Joe Corbiel walked and Larry Feldt, Walter

Michigan State, Michigan In Decisive Three-Game Series

By JOE FALLS

ANN ARBOR (AP)—The Big Ten baseball leaders—Michigan and Michigan State—meet in what should be a decisive three-game series this weekend, and the rival coaches are agreed it will be Michigan's pitching against the lusty hitting of Michigan State.

The teams will play a single game in East Lansing Friday and a double-header in Ann Arbor Saturday.

A sweep for either practically would assure it of representing the Big Ten in Midwest NCAA playoffs, leading to the championship tournament at Omaha June 10-14. Michigan is defending NCAA champion; Michigan State has never played in the post-season tourney.

Michigan State, a surprise team, heads into the showdown series leading the conference with a 6-1 record. Michigan is a shade behind with a 7-2 mark. The series is vital because only one more weekend of activity remains.

"We're simply not hitting," said Michigan Coach Ray Fisher today. "So we're going to have to bank on our pitchers to stop State's strong hitting attack."

The Spartans, in their third season of Big Ten competition, lead the conference with a robust team batting average of .305.

"Last season we potentially had a good team," said John Kobs, head baseball coach at MSC for the last 30 years. "But we didn't jell. Pitching was a weakness. Now, however, the boys have had a year's experience and they have improved."

Michigan State has five regulars batting more than .300, topped by Ray Collard a sophomore outfielder, with an even .500 average.

In This Corner With Ray Crandall

With the Escanaba Bears shaping up as a strong and talented baseball team this year after skipping action last season, fans hereabouts should be in for some attractive spectating soon... Bob Dufour, new Bears manager, has already had a few nibbles for games here... Some of the stronger teams in the Upper Peninsula League are interested in home-and-home series with the Bears.

One game which should attract a lot of attention would be with the Houghton team in the U. P. circuit... The Bukovich brothers, with Tony on the mound, play with the Copper Country club... Maybe the Bears can give the Houghton baseball team the same kind of treatment the Escanaba Hawks gave the Pioneers in the Northern Michigan Hockey League championship playoffs.

The Manistique Cardinals would provide a natural rivalry for the Bears this year... The Cards are annually one of the strong entries in the Bay de Noc League and games against the Bears here and in Manistique in past years have been good attractions.

Speaking of baseball, Hermansville has decided to withdraw from the Tri County League this season... The move was made because Hermansville is unable to field a team strong enough to compete in the league... Most of Hermansville's ball players are not available this summer... This will be the first summer in 50 years that Hermansville has not been represented by a city team... But with high school baseball again being played at Hermansville and the American Legion Junior team back in action there should be enough ball players around to organize a senior team in a few years.

Conley, Braves Shut Out Dodgers

right-hander. In striking out seven while walking nobody, the 6-foot-8 side-arm specialist pinned the first shutout on the Dodgers since June 11 last year.

Braves Lose Argument

The Braves won even though they lost one of the most prolonged arguments of the season. A seventh-inning drive by Eddie Mathews bounced off a railing atop the center field fence and fell back on the field.

Umpire Bill Englin ruled it a double, but umpire Bill Summers called it a home run and waved Mathews in. The Dodgers screamed. The four umpires huddled. The Braves screamed. But in the end Mathews was sent back to second. Despite the ruling, the drive scored Danny O'Connell from first base with Milwaukee's second run. The first came on Joe Ad-

Tiger Streak Snapped By Washington Senators, 5-3

By JOE FALLS

DETROIT (AP)—Despite a losing performance, relief pitcher Al Aber may have clinched a starter's role for himself with the Detroit Tigers.

The 26-year-old southpaw was charged with Detroit's 5-3 loss to Washington Tuesday but, in fairness, he was a victim of percentages and a bad break.

Aber, a pitcher of definite prominence of perfect pitching. In three relief appearances, he had retired 24 straight batters.

But Vernon broke the spell with a slicing liner to left. Roy Sievers singled Vernon to third and, after Vernon was caught in a rundown between third and home, Aber filled the bases by walking Pete Runnels.

Boiling Drops Ball

Then came the break, and it was a crushing one. Ed Fitzgerald hit what appeared to be an inning-ending double play ball at Tiger shortstop Harvey Kuenn. But rookie second baseman Frank Bolling dropped the ball and Sievers raced in from third with the tie-breaking run.

In the ninth, winning pitcher Bob Porterfield, who hurled a strong four-hitter, nailed down the victory by slamming a home run over the left field fence.

Despite losing, the Tigers remained in first place.

The crowd was held to 2,803 by chill 50-degree weather. Snow flurries even fell during the game.

Fred Hutchinson, Tiger skipper, named Ted Gray (0-2) to face Washington today, with Ned Garver (3-0) to go against the New York Yankees in the season's first night game at Briggs Stadium Thursday.

Eskymo Golfers Win Third Straight Meet

MENOMINEE — The Escanaba Eskymo golf team continued to cut a swath through Upper Peninsula opposition here yesterday by defeating Menominee and St. Joe in a triangular match.

Coach Jack Magnusen's Eskymo golfers came in with a 668 total with Menominee second on 688 and St. Joe third with 708.

Hilmer Johnson Wins First Twilight Event

Hilmer Johnson won Escanaba Country Club's first twilight event yesterday, shooting a 40 with a 6-handicap for 3-up on par as golfers faced stiff winds and chilly temperature.

Jim Ward and Dr. K. F. Harrington tied for second, Ward with a 40-6 for 1-up on par and Harrington with 48-11 for 1-up on par.

The 40s fired by Johnson and Ward were low gross for the day with Augie Gafner's 43 second low.

Berrigan Tosses St. Joe To Win Over Broncs, 8-4

BARK RIVER — The St. Joe Trojans reached two Bark River pitchers for 10 hits, seven for extra bases, here yesterday afternoon to post an 8-4 baseball victory.

John Berrigan went the distance for St. Joe to notch the second straight Trojan win after an opening loss to Stephenson. Bark River was also the first St. Joe victim this season, falling 18-1 last week.

Berrigan limited Bark River to four hits while fanning 11 and walking seven.

The Trojans pulled out of a 3-2 deficit in the third inning with two runs and added two more in the fourth and two in the sixth. Berrigan squeezed home the tie run in the third and Greenwood drove in the run to put St. Joe ahead.

In the extra base hit department, Bob Rodman collected two

Major League Teams Must Trim Rosters

NEW YORK (AP)—Major league baseball clubs must trim their squads down tonight to the 25 player limit, plus returned servicemen.

The New York Giants, Milwaukee Braves, Cincinnati Redlegs and Chicago Cubs in the National League and the Washington Senators, Philadelphia A's, Chicago White Sox and Boston Red Sox in the American League already are within the player limit.

The Escanaba Archery Club will hold a chicken shoot at 8:30 at the Club 314 archery range Thursday night.

The shoot is open to all archers who care to compete.

A regular meeting of the club will be held at Club 314 at 7.

Mile Marvel Comes To U. S.

NEW YORK (AP)—Roger Bannister, the first human to run the mile in less than four minutes, was scheduled to arrive here by plane today — but strictly for speaking purposes.

The 25-year-old British medical student, who electrified the world with his 3:59.4 effort last week, will do no running while in the U. S., the British foreign office said.

Roger will be back home on Saturday for the royal homecoming when Queen Elizabeth and the Duke of Edinburgh return from their around-the-world journey.

The foreign office asked Bannister to make the trip which is being underwritten by United States television interests. His first scheduled appearance will be on CBS' "I've Got a Secret" program tonight.

Bannister next hopes to break Mal Whitfield's world half-mile record of 1:48.6 in a meet in London on May 20.

New Broom, a highly rated horse that cost his owners \$75,000 at a yearling auction, won only one race in his career.
